VENEZUELA.

LONDON, June 24.—The Daily News
(Liberal) has an article this morning
in which it again strongly urges upon
the Government a prompt settlement
of the Venezuelan question.

TO DRIVE OUT WHITES.

LONDON, June 24.—The Times will
publish tomorrow a dispatch from
Cape Town which says: The rebel
Mashonas around Salisbury are burn-
ing and looting wherever they go, and
are killing all the natives who have
worked for the whites. Unless the ris-
ing is promptly checked it will de-
velop into a general uprising of all
Mashonaland. It is rumored that the
Mashonas around Victoria have risen
and are massing.

A PIONEER'S RECOMMENDATION.

Mr. J. W. Venable, of Downey, a pio-

dy, and recommend it to every one."

Every Word True

The ladies residing in Honolulu and
suburbs display remarkable good taste
in their dress. This was still fur-
ther shown at the grand ball to be
given on the 3rd, and is thus easily
accounted for, as three-fourths of the
costumes worn on that auspicious
occasion were bought at L. B. Kerr's,
where it would be impossible
to buy an ugly dress. The materials
and quaint designs are simply irresist-
ible, and the prices are so unmis-
takeably low that there is an absolute
saving of at least 25 per cent; in other
words you can buy at that popular
store, a single yard at wholesale
prices.

HARRIET BEECHER STOWE DEAD.
HARTFORD, July 1.—Harriet Beech-
er Stowe died at 12 o'clock today.
When the death signal came the
daughters were at her bedside, but the
dying woman showed not the least
sign of consciousness. She suffered
no pain, but passed away peacefully
and quietly, as if going to sleep.

CAMPOS FOR PEACE.

shal Campos made an eloquent speech
in the Senate today, defending his
policy in Cuba and arguing peace ne-
gotiations.

LEPROSY IN PARIS.

LONDON, July 1.—The discovery re-
cently of a leper wandering homeless
in the streets of Paris has been fol-
lowed by the announcement that fully
100 sufferers of the loathsome disease
are at large among the poor of the
French capital.

Coupled with this news comes the
somewhat reassuring statement to the
Academy of Science yesterday by Dr.
Ouffe that he had succeeded in curing
severe cases of leprosy.

SILVER MEN TO RULE.

NEW YORK, July 1.—The Herald's
special from Chicago says: They have
not hung any gold-standard Demo-
crats yet, but a gold-standard Demo-
crat a week from now, if the free sil-
ver feeling increases at the rate it
grew today, may not be a good risk
for a life insurance company.

PRELIMINARY.

CHICAGO, July 1.—"Bland can be
trusted," is the refrain of the silverites
tonight and Bland is in the lead, with
Boies lost somewhere in the woods
and Matthews not yet out of the
underbrush. While still far short of
a majority and not in sight of the two-
thirds, Bland is strong enough to en-
courage the combination of the other
silver candidates against him. So by
the time the convention meets, he may
be losing ground or nearly out of
sight.

MASSACRES CONTINUE.

NEW YORK, July 1.—The World's
Cape Town cable says: Massacres of

legates to the Democratic National
convention as honorary members and
has adopted resolutions requesting
them to present the name of Henry
M. Teller to the convention as a can-
didate for President.

POPULISTS FOR TELLER.

ST. LOUIS, July 1.—T. E. Taub-
neek, chairman of the People's Party
National Executive Committee, is op-
posed to ex-Congressman Bland for
President, and will entertain no propo-
sition for a compromise with the
Democratic party which does not in-
clude Senator Teller for that position.

CUBAN LECTURER.

CINCINNATI.—Rev. A. J. Diaz, a
Cuban born within eight miles of Ha-
vana, for twelve years pastor of Ger-
sesome Baptist church in Cuba, was
an exile by order of Gen. W. M. Lugo,
preached yesterday in Covington,
in Mount Auburn, and last night at

the Ninth Street Baptist church. He
was a non-combatant in Cuba until his
exile. Now he proposes to travel and
lecture all over the United States in
the interest of the Cuban patriots.
He was recently released from Moro
castle prison in obedience to orders
from Madrid, President Cleveland hav-
ing sent overtures in his behalf.

RHODES A FIGHTER.

GWelo, South Africa.—In an en-
gagement at Movenon Sunday, half a
mile from Mavin's main kraal, the
Matabeles maintained a hot fire for
fifteen minutes. Cecil Rhodes and
Capt. Metcalfe were well in the front.

ing is so strong in Cecil Rhodes' favor

HE'S A VOLUNTEER.

TACOMA, Wash.—At an officers'
council of the Salvation Army con-
ducted here Commander Booth-Tucker
called for a volunteer to take charge
of the work in Hawaii, a field just
opened by the army. Adjt. Simonson,
of Seattle, volunteered, and was
promptly ordered to the islands.

FOR STEVENSON.

WASHINGTON, D. C.—Outcroppings
of the Stevenson boom have been
noticeable in the talk of some of the
delegates at the Kentucky and Vir-
ginia Democratic conventions. There
was no distinct endorsement of the
boom, it is true, but a number of the
delegates spoke kindly of the Vice
President and of the feeling which had
been entertained for him for years by
southern people. Among the Ken-
tucky delegates there is said to have
been quite a sentiment for the Vice
President.

THE BRITISH IDEA.

LONDON.—The Morning Post, re-
viewing the session of the United
States Congress says: The announce-
ment of the adjournment is the first
faint sign of that susceptibility to
public opinion which it was said in
the long run guaranteed the Ameri-
can ship of state against disaster. In
any other country, as a matter of
course, after such a session the party
claiming a majority in Congress would
be hopelessly discredited. This, how-
ever, does not seem likely in America.
No one has a word to say for the con-
duct of that party. Yet these same
representatives will be in the enjoy-
ment of still greater power next year.

PREACHER APPLAUDED.

CHICAGO.—The congregation at the
People's Church, McVicker's Theater,
broke out with applause several times
during the course of Dr. Thomas' ser-
mon Sunday. He was speaking of the
cause of Cuba. It was while dwelling
on this point that the big congrega-
tion interrupted by cheers and hand-
clapping.

SILVER CANDIDATE.

DENVER.—The News prints a
long interview with Judge Henry C.
Caldwell of Little Rock, Ark., who is
spending his vacation in Colorado.
The Judge expressed the hope that the
free silver forces will be united upon
one candidate. Regarding the man
most likely to be selected, he said:
"There are plenty of good men. I
think the Populists and silver Republi-
cans will support Senator Teller, Mr.
Bland or any pronounced and reliable
silver man, who is known to have the
requisite courage and resolution, with-
out regard to his previous politics."

THE BOARD OF HEALTH NEW SCHOOL HOUSES

INTERESTING PROCEEDINGS OF A
REGULAR MEETING.

Liver Fluke on Molokai—Certain Fish-
ing Tabu Raised—The New Market
—Letter from Supt. Meyers.

The Board of Health met at 3 p. m.
Wednesday, President Emerson in the
chair. Members present were Day,
Lansing, Keliipio and Minister Cooper.
Visitors: Dr. Alvarez and Dr. Mon-
sarrat.

Dr. Monsarrat's reports for two
weeks were read. The inspector re-
ported fluke in bullock shipped from
Molokai and Maui, a thing never
noticed before. Most of the cattle
brought from the former island in the
past two weeks were affected.

Mr. Cooper brought up the matter
of permitting fishing in the harbor.
He said a number of petitions had
been received by the Government from
owners of fishing rights asking per-
mission to utilize their properties, or,
if deemed expedient by the health
authorities, some relief from the ex-
pense of maintaining their preserves.
The Minister asked if the tabu could
not be so drawn as not to obstruct
vested fishing rights.

Dr. Day called attention to the origi-
nal laws of the Board respecting har-
bor fishing. When the cholera was
here it was decided to tabu harbor
fishing for all time. There was al-
ways danger so long as vessels arrived
from infected or partially infected
ports. He would willingly accede the
fishermen what they asked, if their
rights were not in the harbor proper;
but fishing in the main harbor should
never again be permitted. There was
now comparatively no danger from
the Quarantine Island side and he saw
no risk in persons with rights on that
side fishing over there.

Minister Cooper said that there were
no fishing rights in water deeper than
a man's waist, which would of course
be outside of the harbor proper. In
view of this he moved to raise the
tabu on all vested fishing rights under
lease, rights to be carefully defined
and marked off. Motion carried unan-
imously.

President Emerson reported a form
for the registration of births, as pre-
scribed by the new law. Same ex-
amined and approved. The deputy
sheriffs of each district have been ap-
pointed agents to keep these statis-
tics.

Inspector Keliipio reported 49,199
fish inspected during the week ending
June 28, and 57,375 for the week end-
ing July 5. Mr. Keliipio reported on a
resolution adopted at the last meeting
separating and designating fish that
have been on ice, as having been put
into effect. Proper tags have been
placed over the stalls where ice fish
are sold.

Several letters from Mr. Meyers of
the settlement were read. The super-
intendent objected to the release of
certain prisoners at the settlement for
the reason that they had proven in
the past to be dangerous persons to
have at large. On motion of Mr. Lan-
sing a copy of the letter was referred
to the Executive as the answer of the
Board respecting the merits of the
persons referred to for clemency.

The application of C. F. Wolf for
the position of Superintendent of the
settlement was read and filed.

A letter from Dr. Stow, withdrawing
his application for the post of govern-
ment physician at Lahaina was read
and same was accepted. The post will
be offered to some one else. It pays
\$90.

Letters from W. O. Smith and Min-
ister Irwin were also read. The former
wrote from Hongkong under date of
June 16. He said he had visited the
plague hospitals, in company with Dr.
Wood, and had arrived at the conclu-
sion that the disease was about as
contagious and as dangerous as
cholera. The Doric, recently here,
was fumigated with sulphur before
sailing from Hongkong under his in-
struction and direction. Facilities for
disinfecting at Hongkong were very
inferior, and Mr. Smith advocates a
combination with the United States
Marine Hospital Service there to com-
pel the use of better measures. The
letter from Mr. Irwin reported the
general health of Japan as exception-
ally good. (Since his letter was writ-
ten, however, two cases of cholera
have been reported at Tokio.)

A letter from Messrs. Hollister & Co.
in reference to their Parifine, a new
disinfectant, was read and filed for
future consideration.

FOUR OF THEM ARE TO BE BUILT
AT ONCE.

Approved Modern Plans—The Details
—Light—Ventilation—Structure in
the High School Grounds.

The Board of Education held a meet-
ing Wednesday afternoon, all mem-
bers and Secretary C. T. Rodgers
present.

Mrs. E. W. Jordan was appointed
on the Board and took the oath of
office. This leaves only two vacancies.
Under the law two ladies are eligible
to the positions. Mrs. Jordan will
serve one year. Mrs. Dillingham has
the long term.

The chief item of business discussed
was the matter of new school houses.
A general plan for two, three and four
room school houses, submitted by the
architects, was adopted. Under it all
class rooms will be 24 by 28 feet in
size and fitted with modern conveni-
ences. All school houses will be
fitted with folding doors so that the
class rooms may be thrown together
at will. A lanai will extend the en-
tire length of the front.

In the general plan a special regard
has been taken to ventilation and
light. Over the front door and in the
top of the roof all school houses will
have lattice ventilators. Each room
will be provided with seven large win-
dows and seven transoms all on one
side. There will also be four doors to
the larger structures. They will be
one story and of wood.

Upon this plan a three room house
will be built at once at Maemae, the
old church in Nuuanu valley. The old
house will be torn down. Work on this
building will begin next week. The
walls of each room will be fitted with
black boards.

A second building to be erected at
once is a four room house on the
mauka lot of the Bishop premises,
Emma street, for the accommodation
of the primary department of the
High School. This will be consider-
ably larger and of better finish than
the one at Maemae.

A third building the Board decided
to build will be at Makaweli. It will
contain two rooms, the design being
the same as the others. A teachers'
cottage will be erected at once.

The fourth house will be at Papai-
kou, Hawaii. It will also have two
rooms. Work on it will begin in Aug-
ust. The teacher's cottage will be
constructed without delay.

Some time was taken up in the dis-
cussion of changes to be made in
teachers for next term. It was decided
to leave the matter over until some
time in August. A large number of
the old teachers will go out and their
places will be taken by new ones.
Besides, several changes among the
old teachers are contemplated. Exami-
nations for certificates will begin
August 26, immediately after the ad-
journment of the summer school.

Inspector General Townsend is still
on Hawaii. Deputy Scott has charge
of the routine work of the department
during his absence.

Among the numerous persons who
have been cured of rheumatism by
Chamberlain's Pain Balm, mention
should be made of Mrs. Emily Thorne,
of Toledo, Wash., who says: "I have
never been able to procure any medi-
cine that would relieve me of rheum-
atism like Chamberlain's Pain Balm.
I have also used it for lame back with
great success. It is the best liniment
I have ever used, and I take pleasure
in recommending it to my friends."
